August 7, 2020

Huskie Nation,

We are excited and grateful to share that the Bond Proposal has passed. The County Clerk has indicated that the Canvas won't be complete until Monday but has assured us that we are within a safe margin to be confident in a passing of the proposal.

The preliminary numbers are:

Gratiot 508 Yes, Saginaw 1 Yes and Midland 252 Yes = 761

Gratiot 293 No, Saginaw 3 No, and Midland 243 No = 539

This bond project will allow us to improve our facilities and classrooms, add busses, and increase our security and efficiency.

We acknowledge that we are in uncharted waters not only in education but overall in light of the pandemic and appreciate the voter's confidence in our school during these unprecedented times. The Breckenridge community has always had the school's best interest at heart and that is evident now more than ever whereas other nearby communities were not successful in similar projects.

We would like to express our gratitude to the stakeholders who defined the bond project and the promotional campaign committee. Special thanks to Mrs. Shelly Brittain and Mr. Brian Goward, the campaign chairpersons for their tireless efforts.

Thank you to all who supported the bond whether through efforts or votes. As the project begins, we will keep you informed through social media, newsletters and our website.

Gratefully,
